WOOD'S CROP SPECIAL

Giving Timely Information and Prices of Seasonable Seeds

PUBLISHED BY T. W. WOOD & SONS SEEDSMEN RICHMOND VA.

VOL. XXVIII.

MARCH EDITION

1933

A FINE CROP OF VIRGINIA NORTHERN NECK RED CLOVER. THE MOST DISEASE RESISTANT STRAIN AVAILABLE.

Adjust Your Crops To Present Conditions

PLANT LESS GRAIN

PLANT MORE GRASS

RALPH F. CRIM, President of the International Crop Improvement Association, said in his Annual Address, November 30, 1932:

HAY-- "It is sound farming to sow legumes and grasses on land which today only increases the surplus of grain crops."

PASTURES-- "We could well afford to convert some of the acreage now growing cereal crops to pasture for a few years at least until consumption catches up with production . . . we need more legumes . . . the acreage of alfalfa could well be increased. Red clover, sweet clover and soy beans have not been overworked."

FARM SEED PRICES ARE THE LOWEST IN THIS GENERATION

At present low prices on all clovers and grass seeds . . . It costs little per acre to increase your hay and pasturage and so improve your land for the time when grain crops will again be profitable.

A Fine Crop of Korean Lespedeza Grown in North Carolina

LESPEDEZA—The Alfalfa of the South

The real value of this comparatively new legume as a hay and soil building crop is rapidly being realized by all leading farmers and agricultural workers. The demand so far this season has more than trebled any other year, and as a consequence supplies are rapidly reaching the exhaustion point, with prices firmer daily. Insurance companies have bought thousands of pounds of Korean Lespedeza for sowing on abandoned farms, which will bring them into a higher state of fertility for the future, when agricultural products can be grown and sold at profitable prices. Korean Lespedeza has the faculty of reseeding itself year to year, and will continue on the land until plowed or broken for another crop.

KOREAN LESPEDEZA—The earliest and most popular strain, well adapted to all sections of the corn belt. Highly drought resistant and heavy seeder, and unexcelled for pasture, hay and soil building. Does especially well in high altitudes.

KOBE LESPEDEZA—The tallest growing of all lespedezas, giving a more abundant growth; about two to three weeks later than Korean. Mr. E. E. Baringer, Rowan County, North Carolina, reports yields up to seven tons of hay per acre with Certified Kobe on rich manured land.

TENNESSEE No. 76 LESPEDEZA—Similar to the common Japan Clover, but grows much taller and yields a third more hay.

JAPAN CLOVER OR LESPEDEZA—The original strain especially adapted for grazing, but on low, moist lands will give good cuttings of hay.

SERICEA LESPEDEZA—Known as the wonder plant of the South. Unlike other lespedeza, Sericea is a perennial, with drought resistant qualities unequalled by any other legume. See inside cover page of our Spring Catalog for complete description. Note new low prices in this issue.

CAUTION should be used in buying Lespedeza. There are large quantities of seed on the market containing dodder, which, if planted, will make your succeeding crop, if harvested for seed, difficult to dispose of. We recommend the use of Certified Lespedeza. It is true to name, dodder free, high purity and germination, and dependable. Our uncertified strains of Lespedeza are of high-grade quality and priced remarkably low.

NOTE NEW LOW PRICES IN THIS CROP SPECIAL

- Special Reductions On —
- RED and SAPLING CLOVER
 - LESPEDEZA SERICEA
 - COW PEAS and SOJA BEANS
 - COTTON SEED
 - SEED CORN

Our customers will find in this issue the lowest prices ever listed for High Quality Seeds. However, there is a strong tendency of advancing values on all agricultural products, and we confidently believe that early purchases at the low prices now existing will prove profitable.

The Banking Holiday

Has naturally caused a considerable amount of uneasiness among farmers and citizens as a whole. But, now, with confidence being restored and hoarded money being put back into circulation, we feel that a new era for agriculture and the country as a whole is in sight.

T. W. Wood & Sons have co-operated with farmers in every way possible in supplying seeds promptly during these unsettled days. We have ample stocks of Highest Quality Seeds available, and are in position to serve our many friends with Better Seeds and Better Service than ever. "There may have been a bank holiday, but not a seed holiday."

Yours for better service,

T. W. WOOD & SONS

— Special Low Prices on —

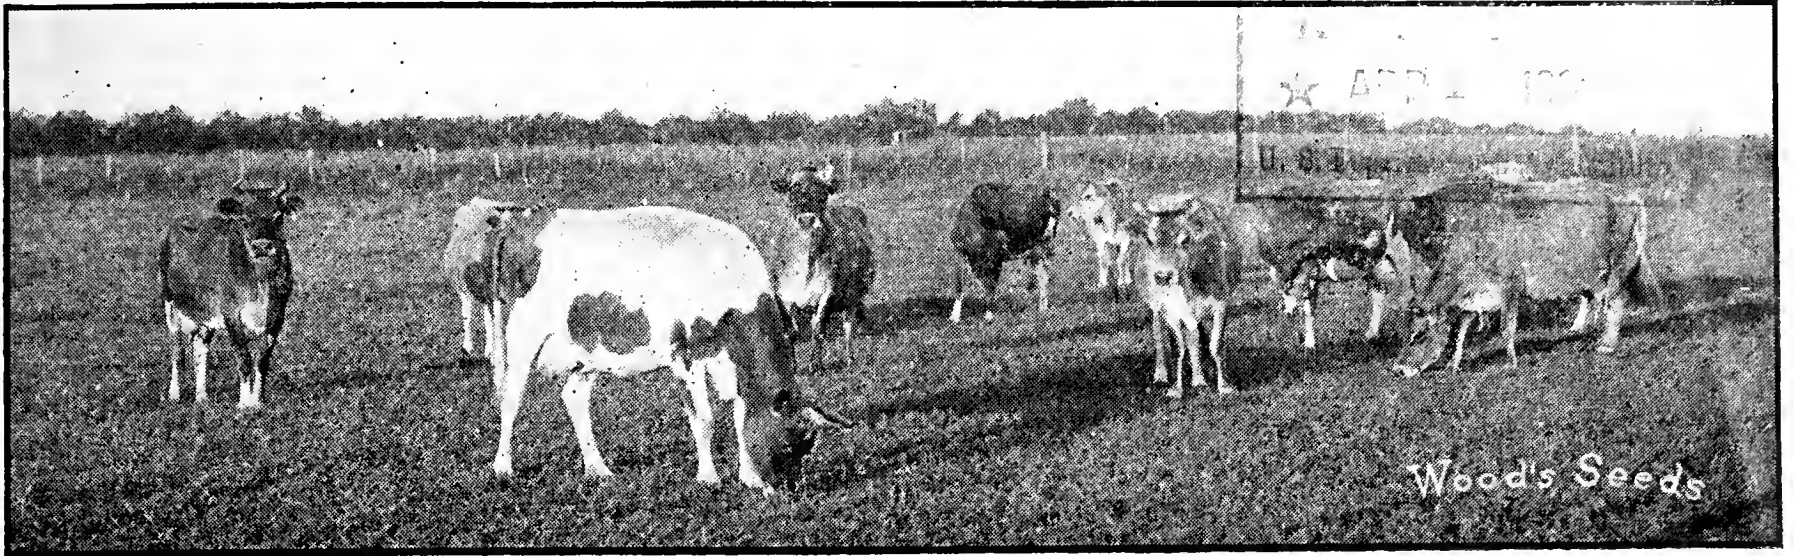

WOOD'S HIGH-GRADE COTTON SEED

Grown at the top of the cotton belt, being ten days to two weeks earlier than other strains of the same variety. Wood's High-Grade Cotton Seed will beat the boll weevil. See Catalog for full description of the following varieties:

	Per 5-bag lots bus. per 100 lbs.	10-bag lots per 100 lbs.	20-bag lots per 100 lbs.
Wood's Ingold Certified	\$1.10	\$3.25	\$3.00
Wood's Ingold Uncertified	1.00	3.00	2.75
Mexican Big Boll Certified* (see below)	2.25	2.00
Coker's Cleveland 884			
Strain No. 2	.90	2.50	2.25
Carolina Foster	.90	2.75	2.40
Improved Early King	1.00	3.00	2.75

* Certified Mexican Big Boll quoted for shipment direct from growing station.

PERMANENT GRAZING CROPS CAN NOW BE PUT IN AT THE LOWEST SEEDING COST IN YEARS

WOOD'S SPECIAL GRASS AND CLOVER MIXTURES

TRIED AND PROVEN MIXTURES FOR HAY OR PASTURAGE

SOW THEM FOR BIGGER AND BETTER CROPS

Permanent Pasture Mixtures

- Mixture No. 1—For light gravelly or sandy soils.
- Mixture No. 2—For good loam soils.
- Mixture No. 3—For heavy loam or clay soils.
- Mixture No. 4—For moist bottom land.
- Mixture No. 5—For wet bottom land.

Sow 30 to 35 pounds per acre.

See Catalog for full description of Mixtures.

Southern Permanent Pasture Mixture No. 12

For Both Light and Heavy Soils.

A mixture of Paspalum, Carpet and Bermuda Grasses, Korean, Kobe, Tennessee No. 76, and Common Lespedeza, and Wood's Dixie White Dutch Clover, as recommended by the Southern Experiment Stations for abundant pasture during the hot Southern summers and cold winters. Every ingredient is well adapted to southern conditions of soil and climate. Sow 18 pounds to the acre. By mail postpaid, lb. 27c.; 5 lbs., \$1.05; 10 lbs., \$1.95; 25 lbs., \$4.15; 50 lbs., \$8.15.

Not postpaid, lb., 20c.; 5 to 24 lbs., 16c. per lb.; 25 to 99 lbs., 14c. per lb.; 100 lbs. and over, 13c. per lb. No charge for bags.

Permanent Hay Mixtures

- Mixture No. 6—For light gravelly or sandy soils.
- Mixture No. 7—For good loam soils.
- Mixture No. 8—For heavy loam or clay soils.
- Mixture No. 9—For moist bottom land.

Prices of all Mixtures Nos. 1 to 9 inclusive: By mail postpaid, lb. 25c.; 5 lbs., 90c.; 10 lbs., \$1.65; 25 lbs., \$3.40; 50 lbs., \$6.65.

Not postpaid: lb., 16c.; 5 to 24 lbs., 13c. lb.; 25 to 99 lbs., 11c. lb.; 100-lb. lots, 10c. lb.; 500-lb. lots and over, 9½c. lb.

WHY USE WOOD'S FERTILIZERS?

Because Wood's Standard Fertilizers represent the very best combination of plant foods. All raw materials are carefully selected for their availability as plant feeders, and care is given in mixing them in correct proportions to insure a properly balanced ration of soluble plant food for the different crops.

Standard Vegetable Fertilizer—8-4-4. 50 lbs., 80c.; 100 lbs. \$1.25; 200-lb. bag, \$2.20; ton, \$21.00.

Standard Potato Fertilizer—Available Phosphoric Acid 7%; Ammonia 5%; Potash 7%. 50 lbs. 80c.; 100 lbs., \$1.35; 200-lb. bag, \$2.55; ton, \$24.50.

Standard Corn Fertilizer—12-2-4. 200-lb. bag, \$2.10; ton, \$20.00. Also good for grass and grain crops.

Market Garden Fertilizer—8-5-5. 100 lbs., \$1.40; 200 lbs., \$2.50; ton, \$24.00.

Super Standard Fertilizer—16-4-4. 100 lbs., \$1.60; 200 lbs., \$2.75; on, \$26.00.

"Standard" Fairgreen Fertilizer—(For Lawns). 100-lb. bag, \$2.85; ton, \$55.00.

Standard Bone Meal—3-22. In paper-lined bags. 50-lb. bag, \$1.10; 100-lb. bag, \$1.90; ton, \$36.00.

Standard Super-Phosphate—16%. 200 lbs., \$1.40; ton, \$12.50.

Nitrate Soda—Champion Brand. In paper-lined waterproof burlap bags. Drills easily. 100-lb. bag, \$1.85.

Sulphate of Ammonia—50 lbs., 80c.; 100 lbs., \$1.85; 200 lbs., \$3.60.

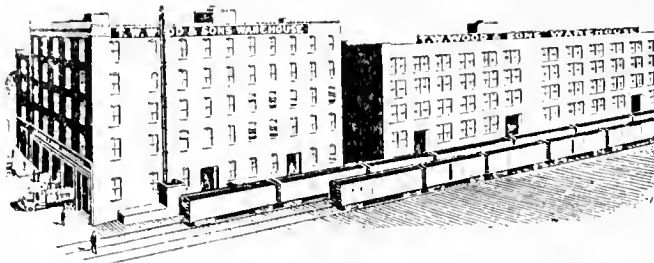

Wood's High-Grade Sheep Manure—25 lbs. 75c.; 50 lbs. \$1.25; 100-lb. bag, \$2.00; ton, \$38.00.

Vigoro (Swift's Plant Food).—5 lbs., 50c.; 25 lbs., \$1.50; 50 lbs., \$2.50; 100 lbs., \$4.00.

Peat Moss (Standard Brand)—For mulching and bedding. 15-bushel bale, \$2.50.

Varieties Listed Are Recommended for the HOME GARDEN

For a Complete List and Description of Other Varieties We Refer You to Our 1933 Catalog.

This Catalog will be a big help in planning your garden. It tells after each variety the number of days to maturity, and on page 4 the Planter's Time Table tells when and how to plant. Write for it. Mailed free.

BUSH OR SNAP BEANS

Plant as soon as ground is warm, and every two weeks thereafter until the middle of August for a continuous supply. One pound

will plant a sixty foot row.

	Postpaid				Not Postpaid		
	Pkt.	1/2 lb.	Lb.	5 lbs.	1 lb.	2 lbs.	5 lbs.
